

Model : SC103 AA-AAA NiMH Battery Charger

Features

- Orange LED charging-in-progress indicator
- Green LED charging-completed indicator
- Charges AA and AAA NiCad and NiMh cells
- Thermal sensor monitors battery temperature while charging
- Compact and lightweight with integral AC flip-plug 100 – 240 Vac operation
- 1 year warranty

Specifications

| Parameter | Minimum | Typical | Maximum | Unit |
|---|---------|---------|---------|---------|
| Input Voltage | 100 | 117 | 240 | Vac |
| Output voltage (ea pair) | 0 | 2 – 3 | 4 | Volts |
| Output when cell voltage is below 1.0 V | 20 | 25 | 60 | mA |
| Output during charging | 200 | 250 | 300 | mA |
| Output upon charge end | 10 | 15 | 20 | mA |
| Efficiency while charging | | 60 | | % |
| Operating temperature | 0 | +25 | | °C |
| Charging time, 1800mah AA cells x 4 | 480 | | | minutes |
| Storage temperature | -40 | | +85 | °C |
| Operating Humidity | | | 95 | %R.H. |
| Storage Humidity | | | 95 | %R.H. |
| Weight | | | | oz |
